

Unit-5

Microprocessor and its Applications (CS313)

Question Bank

1. What is the difference between RISC and CISC computers?
2. Explain some of the features of Intel 386.
3. Compare between Intel 20186 (8086), 20286, 20386 and 20486.
4. What is the embedded system? Draw and explain the block diagram of embedded system.
5. Explain the different classification of embedded system.
6. Explain the applications of embedded system.
7. What is the difference between microprocessor and microcontroller?
8. Draw and explain the block diagram of Intel 8051.
